

IT Level 3 Certificate

What will happen in my first week?

You will begin to learn about the variety of digital devices that are available to us and how these can be used effectively. You will also be introduced to the functionality of database systems.

What can I look forward to in my first year?

The assessment on the course is a combination of external assessment and internally assessed assignment work. In your first year you will learn about IT systems, their impact on different sectors and how to develop database systems suitable for a range of purposes.

Do I need to buy any equipment or kit?

You will need a writing pad for making notes during lessons, a folder and dividers, to help you organise your notes, revision and homework assessments.

Who will teach me?

We have highly experienced specialist IT teachers: Maxine, David, Debbie and Simon

Which modules will I study in my first term?

You will develop your understanding the significant role IT has on the world and how to create database systems for a variety of purposes.

Are there any books I need to buy or useful websites I should look at?

- There are some links on the exam board website (EDEXCEL PEARSONS) to mark schemes, projects, specifications and digital resource which you might find useful to gain a stronger understanding of the course ahead
