

Level 3 T Level Technical Qualification

Nursing Cadet Programme

Why Study this course at Cronton Sixth Form?

The Technical Qualification (TQ) in Healthcare Science provides a broad insight into the healthcare profession and considers the skills and qualities required to work in a range of healthcare settings. One of the great strengths of the T level is the integration of theory and practice as students have the opportunity to apply what they have learnt at College to their healthcare work placements.

What will I study?

The course will enable you to develop the knowledge and skills required to work in a range of health-related professions, including Anatomy and Physiology, working within the health and science sector, principles of good scientific and clinical practice, core science concepts including the structure of cells, tissues and large molecules, genetics, microbiology and immunology they will also learn about topics specific to health, including: understanding the healthcare sector, providing person-centered care and supporting health and wellbeing. The placement experience will enable you to develop the practical and personal skills that you will need to be successful in your chosen career.

How will I be assessed?

Personal and professional development – this unit involves at least 315 hours of placement to be successfully completed in a range of health settings. Students must reflect on each experience using tutor and mentor reports and their own evaluations and produce a portfolio. some units will be externally assessed.

Can I study this course if I have not taken it at GCSE?

You do not need to have previously studied this subject at GCSE.

Entry Requirements

A minimum of 5 GCSEs at Grade 9 – 4 which must include a Grade 4 in English Language and Maths and a Grade 5 in Science. Students must also have a clear DBS (please enquire at your interview).

What will this course lead on to?

You could progress onto a higher level of study such as a BA (Hons) degree in Adult & Children's Nursing, Mental Health & Learning Disability Nursing.

Industry Placements

Industry placement and experience is a vital part of all of the Health and Social Care and Health Studies qualifications. During the course, students will experience a variety of work experience placements including hospitals, nurseries, primary schools and social care settings. Our innovative partnerships in the Health Sector allow us to access prestigious work placements within Warrington Hospital, the NHS and Community Integrated Care (CIC).

Be inspired

Students studying Health and Social Care will gain both theoretical knowledge and invaluable practical experience to enable them to progress to employment or further education in their chosen sector. Health and Social Care students will benefit from our new clinical practice ward with the latest equipment. All students must complete a DBS before carrying out placement. This will be completed within the college.

Are there any costs associated with this course?

You will need to purchase a DBS, nurse's tunic for practical work, and a placement polo shirt.
