

T Level Civil Engineering

What will happen in my first week? During induction you'll meet the Digital Built Environment team. You'll be shown around the college and made aware of all the college student services and facilities. You'll receive a timetable so you know exactly what the following weeks will look like and where in the IDEA Centre your lessons will take place. You'll take part in a range of activities that help you to understand the course and get to know other students in your class.

What can I look forward to in my first year? The course will give you a broad set of core competencies, as well as specialist learning, to help you succeed in Civil Engineering. You'll study core units in Science and Building Technology, the Construction Industry and Sustainability. You'll complete an Employer Set Project and a 45-day industry placement in Civil Engineering. You will be based in the IDEA Centre. You'll have access to CAD suites and modelling workshop.

Do I need to buy any equipment or kit? You will need a scientific calculator and stationery for your lessons. You don't need to purchase specific PPE; however, steel toe caps boots may be required on industry placements and visits.

Who will teach me? We have highly experienced specialist Digital Built Environment teachers, Julia, Daisy and Mo who will support you throughout the course

What will I study in my first term? You'll study Health & Safety, Construction Maths, Digital and Building Technology, Construction and the Built Environment, Sustainability, Commercial Business, Project Management and other units.

Are there any books I need to buy or useful websites I should look at?

The recommended book for Further information about this Technical Qualification can be accessed at: <https://qualifications.pearson.com/en/qualifications/tlevels.html>

For further information on the other components please see the DfE website at: www.gov.uk/government/publications/introduction-of-tlevels/introduction-of-tlevel
