

LEVEL 3 CONSTRUCTION AND THE BUILT ENVIRONMENT

Level 3 Construction and the Built Environment – Extended Certificate

Equivalent to one A Level. This course includes 5 units (3 mandatory and 2 externally assessed) and is designed for students interested in construction and the built environment.

Units are:

- Construction Principles – External Exam
- Construction Technology – External Exam
- Design for Construction and the Built Environment
- Construction Commercial Management
- Retrofit in Construction and the Built Environment

Level 3 3D Design – Introductory Diploma

Equivalent in size to one A Level.

Units are:

- Art and Design
- Constructing 3D Models
- Creating 3D Design Work
- 3D Product Design
- Spatial Design

Students will explore design trends, develop and plan a 3D product from a construction brief, and create and present a model or final product for feedback.

Level 3 Design, Engineer, Construct – Diploma

Equivalent in size to one A Level.
50% Portfolio and 50% Exam

Learners will design, develop, and evaluate a functional, sustainable, and inclusive building based on a real project brief, using industry processes and digital skills.
